Work experience

Jan 2018 – current **Deep Learning Research Engineer**, *Bosch Center for Artificial Intelligence*.
- Domain adaptation of semantic segmentation networks for autonomous driving (PO).
- Synthetic image synthesis for generating corner cases in autonomous driving scenarios.
- Semantic outlier detection in semantic segmentation.

Nov 2016 – Nov 2017 **Big Data Architect**, *T-Mobile Austria, Vienna, Austria*.
Location based services based on mobile phone network signal.

Apr 2015 – Oct 2016 **Postdoctoral Fellow**, *Technical University Vienna, Austria*.
Supervision of students, Large-scale computations of many-body Schrödinger dynamics.

Oct 2012 – Jan 2015 **Postdoctoral Research Fellowship Award (US$144000)**, *Stanford University, USA*.
- Developed ancestral sampling for simulating ultracold quantum gases, published in *Nature Physics*.
- Designed a lightfield microscope 3D imaging of ultracold gases. Published in *Optics Letters*.

Aug 2010 – Sep 2012 **Postdoc**, *University of Heidelberg, Germany*, Parallelization of partial differential equations using OpenMP and MPI in Fortran on supercomputers.

Jan 2007 – Jul 2010 **Doctoral Degree in Physics**, *University of Heidelberg*, Springer Theses: Recognizing Outstanding PhD Research series, developed numerical algorithms to solve quantum many-body dynamics, provided benchmarks in the field of Bose-Einstein condensates.

Software

Python proficiency: intermediate to advanced - pytorch, tensorflow, numpy, pandas, pytest.

C,C++ proficiency: intermediate - simulations of model predictive control problems.

Fortran 90 proficiency: intermediate - MPI parallelization of PDEs for many-body quantum dynamics.

CI/CD proficiency: basic - Jenkins, GitHub Actions.

Dev Ops proficiency: basic - git, poetry, conda, SLURM, LSF.

Education

Apr 2001 – Dec 2004 **Physik-Diplom**, *University of Heidelberg, Germany*, grade: excellent.

Feb 2000 – Jan 2001 **Study Abroad Programme**, *University of New South Wales, Australia*.

Oct 1997 – Jan 2000 **Physik-Vordiplom**, *University of Heidelberg, Germany*, grade: excellent.

Prizes and Awards

2012 Karel Urbanek Postdoctoral Research Fellowship Award, Stanford University (USA).

2011 Springer Theses Award: Recognizing Outstanding PhD Research, Springer.

2008 Dr. Sophie-Bernthsen prize, University of Heidelberg.

Languages

German native speaker.

English similar to native.

French advanced.

Preprints

[1] M. Yatsura, K. Sakmann, N. G. Hua, M. Hein, and J. H. Metzen. Certified defences against adversarial patch attacks on image segmentation. *submitted to NeurIPS*, 2022.

Patents – Patent Applications

[2] D. Nielsen, E. Hoogeboom, K. Sakmann, M. Welling, and P. Jaini. Image classifier comprising a non-injective transformation. *US Patent Application US20220012549A1, European Patent Office Application EP3933692A4, South Korean Patent Application KR20220004933A, Chinese Patent Application CN113963227A, Japanese Patent Application JP2022013919A.*, 2022.

[3] K. Sakmann. Apparatus and method for image processing. *German Patent Office Application, DE102020205541A1*, 2020.

[4] V. Fischer, K. Rambach, C. K. Mummadi, A. Khoreva, K. Sakmann, and S. Piyapat. Object classification with content and location sensitive classifiers. *European Patent Application EP3910552A4, US Patent Application US20210357750A1, Chinese Patent Application CN113673709*, 2020.

[5] A. Khoreva and K. Sakmann. Device and method for training a generative model. *European Patent Office Application, EP3767590A1*, 2019.
